MEDICINAL.

"The square peg in the round hole" figuratively expresses the use of means unsuited to the desired end. A great many people who have been cured of dyspepsia and other diseases of the stomach and its allied organs of digestion and nutrition by the use of Dr. Pierce's Golden Medical Discovery say: "We tried many medicines with only temporary benefit. It was not until we began the use of 'Golden Medical Discovery' that we found a complete and lasting cure."

It is undoubtedly true that Dr. Pierce's Golden Medical Discovery holds the record for the perfect and permanent cure of indigestion and other diseases of the stomach and its allied organs of digestion and nutrition. It is not a palliative. It cures the cause of disease and builds up the body with solid healthy flesh, not flabby fat.

"It is with pleasure that I tell you what Dr. Pierce's Golden Medical Discovery and 'Felix' have done for me," writes Mrs. T. M. Palmer, of Pease, Kaufman Co., Texas. "Two years ago I was taken with stomach and bowel trouble. Everything I ate would put me in distress. I lived two days on milk and even that gave me pain. I felt as though I would starve to death. Three doctors attended me—one said I had dyspepsia, two said catarrh of the stomach and bowels. They attended me (one at a time) for one year. I stopped taking their medicine and tried other patent medicine: got no better, and I grew weak and nervous my heart would flutter. I could not do any kind of work. Now I can do my house work very well, am gaining in flesh and strength, and can eat anything I want."

Accept no substitute for Dr. Pierce's Golden Medical Discovery. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

HIGHER PRICES FOR FOOD.
A dispatch from New York says: Higher prices for various foods, particularly fresh meats and butter, have not only come, but they are here to stay. Moreover, according to expectations of men in the trade, they are likely to go higher still in the very near future.

It is not only beef that has advanced almost sensationally in price within a few weeks. Lamb and mutton have gone up, as have hog products, and so also have poultry and butter. Lard has been advanced from one to three cents a pound within a few months and it has become known that there has been formed some sort of a working agreement between the great producers, who have held meetings in western cities—the last meeting, it is said, at the Ironsides Hotel, in Buffalo, on April 4—to come to understanding as to the conduct of their business profitably in view of the gradually advancing prices all along the line from hog to lard.

The rise in the price of butter is said to be chiefly speculative, not as turning upon any attempt to corner the market, but owing to a belief among the dairymen that Congress will pass the proposed law which is expected to prevent the manufacture of oleomargarine.

According to the figures of the so-called dairy trust, there are manufactured in the United States, 1,500,000,000 pounds of butter a year. Of this, it is said 800,000,000 pounds are consumed in the neighborhood of manufacture, and do not reach the general market, leaving 700,000,000 pounds as the estimated supply through the markets of the large cities.

The annual sale of oleomargarine is put at 104,000,000 pounds, or about one-seventh of the total butter sales of the general markets. It is declared that the advance in butter prices is due to the belief that the oleomargarine bill will be passed and that, therefore, there will be this large hole in the supply to be filled with genuine butter.

Today's market reports showed that "renovated butter," which is said to be sold practically in every grocery store, and to be "renovated" by processes sometimes harmless and sometimes directly poisonous, was selling at 29 and 30 cents as against the wholesale creamery butter at 31 cents, in the wholesale market.

The advance in the price of poultry is a sympathetic one, consequent upon the high beef market. Persons who wish to economize turn from the high priced beef to the poultry market, and consequently the increased demand for poultry sends that up in price also.

The price of beef in the carcasses, as the butcher buys it, is now about 3 cents a pound higher than six months ago. The butchers say that this 3-cent increase to them ought really to mean an increase of 10 cents a pound to the consumer, in order to make things fair for the retailers. In some instances the advances to the consumer have reached 10 cents a pound, but this is to the poor man.

Porterhouse steak, which sold at 25 cents a pound, had advanced to 35 cents a fortnight ago. On Monday the price was put up to thirty cents. But the poorer persons, who were accustomed last fall to buy three pounds of "chuck" steak for 25 cents, now find themselves obliged to buy what they can afford at 16 and 18 cents a pound.

THE SEVEN-MASTED SCHOONER.
The seven-masted steel schooner Thomas W. Lawson, which will be seen in the coal trade out of Baltimore, will be launched in a few weeks at the Fore River Ship and Engine Building Company's yard in New England. The ship's hull is unusually large for a sailing vessel, being 30 feet in height and 6 feet broad, and will weigh about 20,000 pounds. The construction of the hull includes a cat steel frame, to which plates are fastened. Some of the rigging is the largest ever used on a sailing vessel. The foremast is made of two five-inch wire ropes, while the bobsays are two 1 1/2-inch chains. The experience of the sailing masters of the big schooners has shown that the fore-rigging of such a vessel must withstand great strain, and the stays of the Thomas W. Lawson have accordingly been made unusually heavy.

PATENTS.—Messrs. Davis & Davis, Washington patent solicitors, report the grant of the following patents to Virginians this week: Henry D. Mattox, of Halesford, for a corn planter and fertilizer distributor; David C. Mayo, of Richmond, two patents, one for a machine for treating tobacco stems and the other for a machine for drying tobacco.

ALL WHO USE ATOMIZERS in treating nasal catarrh will get the best result from Ely's Liquid Cream Balm. Price, including spraying tube, 75 cents. Sold by druggists or mailed by Ely Brothers, 56 Warren Street, New Orleans, Sept. 1, 1900.

A Valuable Medicine

For Coughs and Colds in Children.
"I have not the slightest hesitancy in recommending Chamberlain's Cough Remedy to all who are suffering from coughs or colds," says Chas. M. Cramer, Esq., a well known watch maker, of Colombo, Ceylon. "It has been some two years since the City Dispensary first called my attention to this valuable medicine and I have repeatedly used it and it has always been beneficial. It has cured me quickly of all chest colds. It is especially effective for children and it seldom takes more than one bottle to cure them of hoarseness. I have persuaded many to try this valuable medicine, and they are all as well pleased as myself over the results." For sale by Richard Gibson druggist.

Neglect Means Danger.
Don't neglect biliousness and constipation. Your health will suffer permanently if you do. DeWitt's Little Early Risers cure such cases. M. B. Smith, Bottorunt, Mich., says: "DeWitt's Little Early Risers are the most satisfactory pills I ever took. Never gripes or causes nausea." For sale by E. S. Leabaster & Co.
